SIGNATURE STUDENT EXHIBITION

VISUAL COMMUNICATION DESIGN

09 June – 10 July 2021

Please join us for the exhibition launch on Thursday June 10
from 6pm at Watt Space

SIGN/NATURE is a student exhibition celebrating creative practice and featuring design, publication, animation, and illustration projects from studio-based courses in Visual Communication Design.

Exhibitors have responded individually and collectively to the SIGN/NATURE theme in unique ways. Some have de-constructed the exhibition title to find idiosyncratic meanings, personal signs, or gestures. Several have offered design proposals to fit the specific nature of a brief, or found their signature modes of visual storytelling. Others have explored organic phenomena through book objects, or used the nature of television as a shared prompt to reveal their own signature illustration styles.
